Foreword

The 2002/2003 academic year brought both enrollment and campus changes to Morehead State University. Record enrollment was set in the fall semester with 9,390 students taking courses on-campus, at an extended campus center, via the internet, etc. Campus changes were also evident with the re-routing of traffic on University Boulevard and the renovation/restoration of the Adron Doran University Center. Growth and change are parts of the continual evolution of a university and are reflected each year in the **Profile** which represents a composite view of the university at specific points in time.

This is the twenty-fourth edition of the Morehead State University **Profile** and while over the years the presentation and content may have changed; the focus has remained the same—to provide a concise, usable reflection of student enrollment, academic programs and faculty characteristics.

Numerous sources are used to arrive at the statistics included in the **Profile**. Most student information is derived from the official fall enrollment and annual degrees conferred that are reported to the Council on Postsecondary Education (CPE). The faculty and staff data is a reflection of information that is reported each fall to the national Integrated Post-Secondary Education Data System (IPEDS). Additional data sources are noted directly on the charts or tables.

This **Profile**, along with the 2000/2001 and 2001/2002 **Profiles**, are available online at www.moreheadstate.edu/units/irca. Also available on this site are the 2002/2003 Nutshells, Common Data Set information and links to other resources such as the University's strategic planning information.

If you have any questions, comments or suggestions concerning the **Profile**, please give us a call at 783-2009.

- Residence halls housed 3,240 students in fall 2002.
- Financial aid for student employment (Fiscal Year '02) totaled \$2,636,587.
- About 67% of MoSU's alumni reside in Kentucky.
- MoSU's 353 full-time and 111 part-time faculty taught 2,268 courses in Fall 2002.
- In addition to faculty, MoSU employed 1,045 staff (including 117 graduate assistants.)
- The university's opening budget (2002-03) was \$92.1 million.

University Overview

Meeting the educational needs of East Kentucky while striving to constantly improve the quality of its public service, economic development and applied research programs are the primary objectives of Morehead State University.

Historically, the University traces its lineage to the Morehead Normal School, which opened its doors in 1887. The private school closed in the spring of 1922 when the Kentucky General Assembly established Morehead State Normal School. The state institution accepted its first students in the fall of 1923 and graduated its first class in 1927. Name changes occurred in 1926 when "and Teachers College" was added, again in 1930 when it was shortened to Morehead State Teachers College, again in 1948 when "Teachers" was dropped and, finally, to university status in 1966. Twelve men, starting with Frank C. Button, have served as president. Dr. Ronald G. Eaglin assumed office as the 12th president on July 1, 1992.

Academically, the University offers 76 undergraduate degree programs, including 8 associate level degrees and 12 pre-professional programs in four colleges -- Business, Education, Humanities, and Science and Technology -- and 19 academic departments. There are 38 graduate degree programs plus 17 graduate level non-degree programs designed especially for professional educators. The education specialist in five specialty areas also is offered. A master's degree for physician's assistants and a cooperative doctoral program, both with the University of Kentucky, are available on the MSU campus.

Classes are conducted in Ashland, Jackson, Maysville, Pikeville, Prestonsburg, West Liberty, Mt. Sterling and other locations. Extended campus centers--located in Ashland, Jackson, Mt. Sterling, Prestonsburg and West Liberty--are staffed with full-time directors. Additionally, the University offers a number of distance learning courses throughout the region via the Internet and interactive compressed video. Sixty-four percent of MSU's 353 full-time faculty members hold doctoral degrees.

Physically, the University is located in the foothills of the Daniel Boone National Forest in Rowan County. The nearly 500-acre main campus within the city limits of Morehead includes more than 50 major structures with a total replacement value of more than \$144 million. Beyond the city, the University's real estate holdings include the 320-acre Derrickson Agricultural complex and a nine-hole public golf course. The instructional plant includes 120 classrooms and 112 laboratories. Housing facilities include space for approximately 3,400 single students and 138 student families. Fiscally, the University currently operates on an annual budget of \$96.3 million with about \$42.6 million provided by the state and \$31.8 million coming from tuition and fees and other sources. Additionally, grants and contracts from external sources for research, service and academic/student support projects generate more than \$10 million each year. Private donations to the University, mainly through the MSU Foundation Inc., have reached more than \$2 million.

Statistically, the University has awarded more than 46,000 degrees and currently has 1,083 full-time employees. Enrollment for fall 2002 was 9,390, with the student body representing 106 Kentucky counties, 43 states and 39 foreign countries. The University attracts more than 50,000 visitors annually and its economic impact, directly and indirectly, on the Morehead area is estimated at more than \$80 million yearly.

Administratively, an 11-member Board of Regents governs the University with eight citizens appointed by the governor and three seats held by elected faculty, staff and student representatives. Management of the institution is vested primarily in six divisions--Academic Affairs, Administration and Fiscal Services, Development, Planning and Technology, Student Life and University Relations--with each headed by a vice president.

Athletically, the University sponsors 18 intercollegiate sports for men and women in accordance with the regulations of the Ohio Valley Conference, the Pioneer Football League and Division I of the National Collegiate Athletic Association. MSU also supports an intramural program involving more than 20 team and individual sports.

Mission Statement

WHO WE ARE:

We are a community of learners that includes teachers, scholars, staff, and students, accredited as a comprehensive University serving the eastern region of the Commonwealth of Kentucky.

WHAT WE DO:

We offer quality higher education opportunities and training in a collegial environment of open inquiry and educational interaction. We continually pursue academic education, professional development and research in the belief that learning is a life-long process. We are dedicated to serving as both an important educational resource and as a positive role model for our community.

WHERE WE ARE GOING:

We commit to preparing ourselves for the challenges and opportunities of the 21st century and to improving the quality of life for the community in which we live and work, while protecting and preserving the unique history and heritage of our service region and the Commonwealth of Kentucky.

Adopted 2001.

Degree-Seeking vs. Non-Degree-Seeking Students and the Council on Postsecondary Education (CPE) Classification System

The Kentucky Council on Postsecondary Education (CPE) classifies students as degree-seeking or non-degree-seeking. Degree-seeking students are those enrolled or planning to enroll in programs of study in which formal degrees are awarded following program completion. Student classification by level begins with designation as graduate or undergraduate.

Degree seeking students at the undergraduate level are classified as Freshman (fewer than 30 credit hours accrued), Sophomore (at least 30 but fewer than 60 credit hours accrued), Junior (at least 60 but fewer than 90 credit hours accrued), and Senior (90 or more credit hours accrued).

At the graduate level, Masters degree-seekers must have earned an undergraduate degree and be enrolled in a masters level program of study. Specialists degree-seekers in general must have earned a masters degree and be enrolled in a specialist level program of study.

Non-degree-seeking students may be classified as undergraduate non-degree, high school (high school students taking a college class for credit), graduate non-degree or auditor. Graduate non-degree students are typically 5th year Education majors or Rank I Education majors. These students follow a program of study but there is no formal degree awarded. Auditors may be taking a class for no credit (auditing) at either the undergraduate or graduate level.

Going From CPE Level Classification to Typical Enrollment Presentation Classification

In general, when MSU presents enrollment figures, the degree-seeking status of students is ignored and data are reported by five levels -- four (4) undergraduate levels (freshman, sophomore, junior, senior) and one (1) graduate level.

To collapse the Fall 2002 degree-seeking classification tables on page 13 into five levels presented on page 15:

Begin with the degree-seeking classifications:

Freshman	2,678
Sophomore	1,483
Junior	1,375
Senior	1,765
Postbacc*	60
<i>Senior Subtotal</i>	<i>1,825</i>
<i>UG Subtotal</i>	<i>7,361</i>
Graduate (Masters)	998
Graduate (Specialist)	14
Graduate (Doctoral**)	3
<i>Graduate Sub Total</i>	<i>1,015</i>
Total Degree Seeking	8,376

Take non-degree-seeking classifications:

(1) Undergraduate Non-degree (272) -- Note: insufficient information is presented here to do this; however, on the basis of hours accrued, we determined there are 259 freshmen, 6 sophomores, 2 juniors, and 5 seniors (add to appropriate class)

(2) High School (72) -- add to Freshman

(3) Auditors (7) -- Note: again, insufficient information is presented here to do this; however, each auditor is a graduate level or undergraduate level auditor. There were 7 graduate auditors. Add to Graduate.

(4) Graduate Non-Degree (663) -- add to Graduate

Total Non-Degree-Seekers: 1,014

Thus, in Fall 2002, MSU had:

	<u>Degree-Seeking</u>		<u>Non-degree</u>		<u>HS</u>		<u>Auditor</u>	
Freshman	2,678	+	259	+	72	+		= 3,009
Sophomore	1,483		6			+		= 1,489
Junior	1,375		2					= 1,377
Senior	1,825		5					= 1,830
Graduate	1,015	+	663			+	7	= 1,685
							Total students	= 9,390

* "Generated" refers to credit hours generated through courses taught within a college.

Credit Hours - "Consumed" and "Generated"

The difference between credit hours "consumed" by majors within a given college and credit hours "generated" by faculty teaching within a given college characterize that college's general academic service profile. For example, Business majors accrued (consumed) 16,894 credit hours in Fall 2002 whereas Business faculty taught classes which generated 16,643 credit hours during the same semester. The number of credit hours consumed by Business majors in excess of credit hours generated by Business faculty characterizes the College of Business as an academic service "consumer" in Fall 2002. As expected, the College of Humanities generated the most course credit hours overall as well as the most credit hours in excess of majors' credit hours (consumed throughout the University).

"CIP" Majors

"CIP" is an acronym for "Classification of Instructional Programs", a taxonomy developed by the National Center for Education Statistics which is the Federal standard used for collecting, reporting, and interpreting education program data. The Kentucky Council on Postsecondary Education assigns CIP codes (and descriptions) to all post-secondary approved programs of study.

Prefixes (to the code) "A", "B", "C", "M", "S" and "D" describe program levels - associate, bachelor, certificate, master, specialist and doctoral (cooperative doctoral program with the University of Kentucky). Non-degree and undecided prefixes "G" and "U" identify graduate or undergraduate levels.

Highlights

Majors, 2002

Undergraduate

About 10% (754) of fall 2002 degree-seeking undergraduates had not yet declared a major program of study and an additional 344 undergraduates did not plan to seek a degree. For degree-seekers, the most popular undergraduate majors were in the fields of Education, Liberal Arts, Biology, Business & Communications. Fall 2002 degree programs with 100 or more majors were:

(Bachelor) Elementary Teacher Education	646
(Associate) General Studies	461
(Bachelor) Biology, General	430
(Bachelor) Mgt Information Systems & Business Data Processing	328
(Bachelor) Communications, General	326
(Bachelor) Business Administration & Management	292
(Bachelor) Social Work, General	200
(Bachelor) Sociology	189
(Bachelor) Industrial Technology	188
(Bachelor) Psychology, General	188
(Bachelor) Nursing, RN Training	183
(Bachelor) Radiologic Technology	173
(Bachelor) Accounting	171
(Bachelor) Fine/Studio Arts	165
(Bachelor) General Studies	162
(Bachelor) Music Teacher Education	151
(Associate) Nursing, RN Training	145
(Bachelor) Special Education, General	139
(Bachelor) Business Marketing & Marketing Mngt	136
(Bachelor) Exercise Science	121
(Bachelor) English Language & Literature, General	119
(Bachelor) Social Science	119
(Bachelor) Agriculture Science	115

Graduate

Forty percent (670) of fall 2002 graduate students were non-degree enrollees. Traditionally, in contrast to undergraduate non-degree students, graduate non-degree seekers tend to follow programs of study. The majority of graduate non-degree students attend MoSU in order to satisfy Rank I and 5th year certification requirements in Education.

The predominate graduate degree majors are:

(Master) Business, General	292
(Master) Elem, Middle School & Secondary Educ Administration	123
(Master) Elementary Education	120

*Classification of Instructional Programs

Source: Council on Postsecondary Education Data Base

In order to obtain a general program area overview of enrollments, the Council on Postsecondary Education prepares trend tables displaying comparative fall enrollments by CIP (Classification of Instructional Programs) Area. That is, the 6-digit CIP codes for specific program majors are collapsed to 2-digit codes and enrollments in all majors beginning with the 2-digits are summed. For example, under CIP code 13 (Education), enrollments in 20 specific program major codes have been summed showing MoSU's fall 2001 enrollment in Education programs to be 1,757. The technique allows for quick overview of predominate areas of enrollment at MoSU (as in this table) and for other institutions across the Commonwealth.

Morehead State University is a predominantly undergraduate institution. This overview displays the relative emphasis on undergraduate education by colleges as reflected in fall 2002 numbers of courses taught, course enrollments and credit hours generated. Overall, 57% of UG courses taught were lower level (UG) courses. Thirteen percent courses taught were graduate level offerings. These graduate level courses accounted for 7% of course enrollments and 8% of total credit hours generated, respectively. Average class sizes varied by college and level. In general, lower-level classes were larger than upper level class sizes and graduate level class sizes were smallest over University-wide, in fall 2002, the average undergraduate lower level class size was 26, the average undergraduate upper level class size was 13 and the average graduate class size was 11. The college comparative figures below display fall 2002 relative instructional by Lower, Upper and Graduate student levels.

Distance Learning Courses Fall 2002

In fall 2000, the Council on Postsecondary Education reclassified distance learning courses by site (on-campus, off-campus) and by primary learning mode of delivery ("A" Institutional Telecourse, "B" Internet/World Wide Web, "C" Interactive Video, "D" Print Based, Audiotaped, Videotaped, or CD ROM Study (includes traditional correspondence study)).

Morehead State University reported 159 distance learning courses in fall 2002. The following table shows that for those 159 courses, the predominant modes of delivery were Interactive Video (106 courses) and Internet (49 courses). The remaining 4 courses were Open Broadcast, KET originated. The other two sections of the table display total course enrollments and student credit hours generated by all distance learning courses in fall 2002. In total, distance learning courses accounted for about 4% of course enrollments (1,874 of 43,401) and 5% of student credit hours generated (5,478 of 112,726) overall.

Note: PCC completers are all graduates of Kentucky high schools or Kentucky home schools. PCC non-completers include Kentucky students who did not complete the pre-college high school curriculum and includes exempt status students such as out-of-state and some non-traditional students. GED completers occur in both groups.

Highlights

Graduate Enrollment

Over the past five years, first-time graduate student enrollment has accounted for about twenty percent of graduate student enrollment overall. For the most recent five-year period, first-time graduate headcounts were 17% (254 of 2,528) in fall 1998, rose to 18% (281 of 1,530) in fall 1999, peaked at 23% (362 of 1,572) in fall 2000, declined to 21% (369 of 1,759) in fall 2001 and came full circle in fall 2002 at 17% (289 of 1,678). First-time graduate enrollment in fall 2001 was fairly evenly split between degree-seekers and non-degree-seekers (156 vs 133, respectively) a continuing trend over the past five years.

Unlike first-time freshmen who typically take the required college entrance examination such as the ACT or SAT prior to enrolling, a large proportion of first-time graduate students take advantage of the “12 credit hour” rule which limits graduate students to twelve graduate credit hours before taking the required Graduate Record Examination (2002-2003 Graduate Catalog, p.6). Since fewer than half of first-time graduate students typically have GRE’s or GMAT scores on file by their second semester of enrollment, we have taken an annual snapshot of the total graduate student population rather than just first-time students.

The following tables display selected characteristics of 1,678 fall 2002 graduate students (seven graduate level auditors have been omitted) by degree objective (degree-seeking or non-degree-seeking) and major. Note that table large “N’s” refer to the total number of graduate students within a given major and small “n’s” correspond to the number of students contributing to a given average score. Average scores have not been printed for majors for which there were fewer than three students contributing scores although the presence a “+” indicates that these scores have been used in calculating overall GPAs and subtest scores.

UG RETENTION/ GRADUATION RATES

Highlights

Undergraduate Retention Rates

The American College Testing Program annually compiles postsecondary freshman to sophomore year dropout rates from its ACT Institutional Data File. The table reproduced below displays ACT-compiled 2002 National Dropout Rates, Freshman to Sophomore Year, by Admissions Selectivity for institutions reporting cut-off scores. Since this institution tends to think primarily in terms of the flip side of the dropout coin (retention), we have added a column to the ACT table – *Implied Retention Rate, Mean %*.

For comparative purposes, Morehead State University's ACT Composite cut-off score for unconditional freshman admission in fall 2002 was 14 (with an Admissions Index of at least 400), whereas the average Composite score for MoSU's fall 2002 first-time freshmen was 19.8. In terms of institutional admissions selectivity, an average ACT Composite score of 20 would place MoSU somewhere between "Open" (ACT 17-20) and "Liberal" (ACT 18-21) selectivity with "Implied Retention Rates" between 53.6% and 65%, respectively. MoSU's fall 2001 first-time freshman retention to fall 2002 was 66.2%, slightly above the average "Liberal" selectivity institution retention rate for the same time period.

Retention by CPE vs. Traditional Classification

The difference between CPE classification of fall 2002 students and the University's 'Traditional' classification of the same students is shown in detail in the Enrollment section of this [Profile](#) on Page 12. Briefly, MoSU's 'Traditional' classification disregards the student's degree-seeking status, pooling degree-seekers and non-degree-seekers within four undergraduate and one graduate classification (freshman, sophomore, junior, senior, graduate) based on the number of student credit hours completed. CPE's classification scheme first determines degree-seeking status (degree-seeking, non-degree-seeking), and then classifies undergraduate degree-seekers into five categories (freshman, sophomore, junior, senior, post-baccalaureate) and three non-degree-seeking categories (UG non-degree, High School, auditor*). Thus, only one group, 2001 First-Time Freshman, in the 'Undergraduate Retention Rates by Traditional Classification -- Fall 2001 to Fall 2002' table on the previous page consists entirely of degree-seekers.

The table above displays retention of fall 2002 undergraduates to spring 2003 by CPE classification. Here undergraduate degree-seekers have been classified as freshmen, sophomores, juniors, seniors or post-baccalaureate based on credit hours completed. In CPE classification, High School students taking courses are identified as special non-degree students separate from other undergraduate non-degree enrollees who are grouped together as 'UG Non-degree' regardless of credit hours completed. As can be seen in the table, fall to spring retention of degree-seekers was higher than for non-degree-seekers which is consistent with retention findings for any time period.

A Perspective on Graduation Rates

The American College Testing Program annually compiles graduation rates by type of institution, level of selectivity and degree level. The following table, compiled from ACT's Institutional Data File, 2002, displays rates for graduation within 3 years for associate degrees and 5 years for baccalaureate degrees.

MoSU's 3-year graduation rate for 1996-97 associate-seekers was 3% (12 of 366). However, an additional 57 associate-seekers obtained baccalaureate degrees within 5 years for an adjusted 5-year graduation rate of 19% (69 of 366). Likewise, for 1996-97 baccalaureate-seekers, 5 students obtained associate degrees within 3 years whereas an additional 335 students obtained baccalaureate degrees within 5 years for an adjusted 5-year graduation rate of 38%. The table on page 73 displays comparative 3, 4, 5 and 6-year graduation rates for 1996-97 first-time, full-time freshmen by degree-seeking level.

Note: All students (1,271) represents fall 1996 full-time Associate- and Baccalaureate-seeking first-time freshmen. The Student Athletes tracked are a subset of All Students consisting of those freshmen receiving athletics aid. NCAA rules accept graduation counts for baccalaureate-seekers who obtain baccalaureate degrees only. Likewise, the Kentucky Council Postsecondary Education (CPE) accepts graduation counts for baccalaureate-seekers who obtain baccalaureate degrees only.

The Ten-Year Trends, First Degrees Conferred 1992/93 -- 2001/02 table above displays the total headcount of degree recipients by first degree conferred for each of those years. The table below, Second Degrees Conferred 1992/93 -- 2001/02, indicates the number of students in each of those ten years who received a second degree during the same "degree year" in which the first degree was conferred. For example, in 2001/02, a total of 1,372 degrees were conferred on 1,372 students. Of that number, 31 students obtained a second degree during the same year. A total of 1,403 degrees were conferred on 1,372 students during 2001/02.

MSU's full-time faculty is 59% male to 41% female in composition. Although 64% of faculty overall have doctoral degrees, about 22% more male faculty have doctorates (151 of 226 or 73%) than do female faculty (75 of 146 or 51%). Regardless of degree, 33% (48) of female faculty hold assistant professor rank; 37% (54) are at the associate professor level; 26% (38) are instructors; and 4% (6) are professors. By comparison, 24% (50) of males hold professor rank; an additional 27% (55) are associate professors; 37% (76) are assistant professors and 13% (26) are instructors.

AAUP/IPEDS and Faculty Salary Comparisons

IPEDS (Integrated Post-Secondary Education Data System) full-time faculty are by National Center for Education Statistics definition:

Those members of the Instruction/Research staff who are employed full-time (as defined by the institution) and whose major (more than 50%) regular assignment is instruction, including those with released time for research. Also included in this category are:

- * Full-time instructional faculty on sabbatical leave
- * Full-time replacements for instructional faculty on leave without pay
- * Chairs of departments (if they have no other administrative title and hold a full-time faculty rank.)

Both AAUP (American Association of University Professors) and IPEDS annually collect and report on average faculty salaries and compensation (salaries plus other benefits). As an option, institutions may forward their mandatory IPEDS faculty surveys to AAUP rather than prepare a separate AAUP-sponsored survey. AAUP publishes an “Annual Report on the Economic Status of the Profession” in the March-April issue of its bulletin, *Academe*. Although the Kentucky regional universities no longer share a set of benchmark institutions, we have continued to include a regional comparative faculty salary table in this year’s fact book as well as a table displaying average faculty salaries by rank for MoSU’s fall 2002 nineteen benchmark institutions. All faculty salary averages and respective numbers at each rank have been taken from “Salaries, Tenure and Fringe Benefits of Full-time Instructional Faculty”, *Academe*, March/April 2003.
